

## TERRITORY MAPPER Program Installation Instructions

---

**Please note:** Close all programs that are open on your computer before performing the Territory Mapper installation. You may need to reboot your computer after completing the installation.

1. Please close any running applications.
2. Browse to the directory that contains the Territory Mapper setup file you downloaded and double-click **tmsetup.exe**. If you are installing from a CD, simply insert the Territory Mapper Installation CD and setup should begin automatically.
3. On the Welcome dialog, click **Next** to display the License Agreement dialog, and click "I accept..." after reviewing the agreement to indicate agreement. Installation cannot proceed until the license agreement is accepted. Click **Next** to continue to the User Information dialog.
4. Enter your Name and Company in the spaces provided, and click **Next** to display the Destination Folder dialog.
5. It is recommended that you accept the default destination folder. If you want to change the destination folder, click "Browse". Click **Next** to continue.
6. If you need to change any installation information entered, use the **Back** button to return to the previous dialogs. To begin the installation, click **Next**. The installation program will now copy required files to your hard drive, and create desktop and start menu shortcuts.
7. Once installation is complete, click **Finish** in the final dialog.

Note: **You must have administrative privileges in order to install Territory Mapper.**

### Using Territory Mapper

---

Territory Mapper comes with a comprehensive online help system and tutorial. You can access the tutorial from the help menu in Territory Mapper, or directly from the start menu under Programs\Territory Mapper. Also, please be sure to visit the support website at: [www.territorymapper.com/support](http://www.territorymapper.com/support) for information about product updates as well as helpful tips for using the software.

If you have any questions regarding the installation of Territory Mapper, please visit [www.territorymapper.com/support](http://www.territorymapper.com/support) or send an email to [support@territorymapper.com](mailto:support@territorymapper.com).
